Update on the Proposal to the EU Horizon2020 call on “Trends and forward-looking scenarios in global governance”

Burkhard Auffermann, Finland Futures Research Centre

FEN Meeting 12.6.2018, Tampere, Finland

Burkhard.Auffermann@utu.fi

Programme and project

- Horizon 2020 Work Programme 2018-2020, chapter 13.
Europe in a changing world – Inclusive, innovative and reflective societies
- Specifically the call: H2020-SC6-GOVERNANCE-2018-2019- 2020, Topic: **Trends and forward-looking scenarios in global governance.**
- **Future Global Strategies for Europe (FutureGlobE)**

Participants

- 1 (Coordinator) University of Turku, Finland Futures Research Centre (UTU) Finland
- 2 Freie Universität Berlin (FUB) Germany
- 3 Wageningen University (WUR) The Netherlands
- 4 Austrian Institute of Technology (AIT) Austria
- 5 Vilabs (VILABS) Cyprus
- 6 Dublin City University (DCU) Ireland
- 7 World Federation of United Nations Associations (WFUNA) Switzerland
- 8 European Commission, Joint Research Centre (JRC) Belgium
- 9 University of Western Ontario (UWO) Canada
- 10 Romanian Scientific Society of Interdisciplinary Research (RSSIR) Romania
- 11 4CF (4CF) Poland
- 12 Law and Internet Foundation (LIF) Bulgaria
- 13 Emetris SA, Phemonoe Lab (PLab) Greece
- 14 Instituto Europeo de Prospectiva y Estrategia (Prospektiker, PKT) Spain

FutureGlobE

- Combines 1. critical global governance analysis with 2. foresight
- Participative trend- and scenario analysis of future shifts in global governance
- Horizon scanning, trend analysis and scenarios of stagnation & transformation & fragmentation
- Resulting in policy recommendations and a
- Set of games with future-impacts, JRC and WFUNA developed & piloted
- Current Stage:
- Proposal is in the process of evaluation
- Result should become public in early Autumn. In case of a positive decision the project could start towards the end of 2018/early 2019.

Experiences in perspective of future preparation for proposals

- **Co-ordinators role & input** is central to be able to present a very good proposal in time (substance competence, existing network in the field, management and administrative competences/support organisation, sufficient time available (several PMs))
- Competences of all partners with respect to the specific topic and sub-topics have to be very good
- Additional partners have to be included: some with special knowledge in the field and some famous ones (highly competitive names!).
- FEN is not an eligible applicant. It won't be a FEN-proposal, but a proposal incl. cooperation with FEN and possibly the Millennium project.
